TWENTY-FIVE PER CENT DISCOUNT TO THE TRADE
Purchaser paying transportation. No charge for packing.

Our stock is guaranteed true to description, and we will REPLACE WITH THREE any that prove not true. We can make this UNPARALLELED guarantee because of the extreme care we have always used in growing our stock. Any peony is much surer to bloom, and will be twenty per cent stronger, if moved in September, so that new rootlets may form before freezing down. All are listed under colors in the order of their blooming and described as by the American Peony Society.

All shipments are made at the purchaser's risk, and if shipping instructions are not given we will exercise our best judgment. Can send by parcel post small orders if a sufficient sum is added to cover postage, and any unused balance will be returned.

Any order shipped to one person amounting to \$100.00 or more for Peonies and Iris from this folder (except the net peony bargain list and iris collections) will be given a discount of 25 per cent.

TERMS:—To new customers, cash with order or payment before shipment is made, or satisfactory reference. No charge for packing.

X—Indicates Best Moderate-Priced Sort in Each Section

NO OTHER FLOWER has so many combinations of color, especially of the delicate and unusual shades, and the name of Rainbow Flower is most fitting.

They are absolutely hardy, as beautiful in form, texture and coloring as any orchid, and many are delightfully fragrant. They are not particular as to soil—and will grow where anything will, but do better in well-drained location.

The following list is selected after many years of systematic testing, similar to our Peony studies, and contains all the most desirable and distinct varieties, collected from England, France, Germany and elsewhere.

Queen Alexandra (equalens), 30 inches. S. lavender. F. pale purple, very soft radiant in attitude. A real queen. One of Peter Hall's choicest sorts. Unusual and scarce.

These last three Fryer seedlings could be listed among the bronzes.

IRIS

(FLEUR-DE-LIS)

When ordering single roots by the dozen or hundred, state whether roots are to be separated or not pulled apart. This makes it possible to have clumps of any size the purchaser wants to separate them into at the wholesale rate.

All shipments are made at purchaser's risk and if shipping instructions are not given we will exercise our best judgment.

Can send by parcel post small orders if a sufficient sum is added to cover postage, and any unused balance will be returned.

BRONZE

KEY

Read down columns for all of same color. The number under each variety refers to the group in which price can be found.

Prosper Laugier (equalens), 40 inches. S. fiery bronze, F. velvety ruby amethyst, like a pansy bloom. This new "bronze" variety outclasses them all in being a clear, well defined striking combination in a complete harmony of correctly blended colors. The hardest and freest blooming sort of this whole list.

Eldorado (equalens), 42 inches. S. fiery opalescent. F. old gold suffrutescent with burnt purple. Possessing a totally distinctive harmony of subdued hues and perfect blending unknown in any other iris.

Iris King (equalens), 28 inches. S. bronze yellow. F. very large mauve edged yellow. Well named "The King of the Iris."

Quaker Lady (equalens), 36 inches. S. lilac mauve. F. deeper shade with old gold tinge. A modest though highly pleasing effect.

Red Cloud (equalens) (for seedling), S. "Roy lavender bronze, F. velvety mauve crimson." \$1.00 each single root.

Clarence Wedge (Fryer), 30 inches. S. "Heliotrope tinged with yellow with lighter edge. F. purple red 'Gloxy Strain.'" \$1.50 each single root.

A. E. Knudsen (Fryer), 30 inches. S. "Yellow bronze lined with magenta, F. magenta red. 'Gloxy Strain.'" \$1.00 each single root.

Rev. S. H. Smith (Fryer), 28 inches. S. "Bronze crimson. F. mauve red, edged with bronze. 'Gloxy Strain.'" \$1.00 each single root.

YELLOW

Mrs. Neubronner (variegata), 28 inches. S. & F. rich, clear golden yellow, beautiful yellow. Like giant daffodils. Richer gold. Deeper yellow than Anica.

Darius (variegata), 26 inches. S. lemon yellow. F. amethyst with deep veining and yellow margin. One of the older varieties that no new sort has been able to supplant.

Loreley (variegata), 30 inches. S. breast of a wild canary. F. creamy white with purple reticulations blending into a velvety purple mass near the ends which are margined with deep canary. The best of this type and most prolific.

Miss E. Eardley (variegata), 24 inches. S. clear golden yellow. F. rich maiden red with yellow edge. A new English variety.

Sherwin Wright (variegata), 28 inches. S. & F. "Rich golden yellow without markings or shading."

Lou Fuller (Vaughan), 26 inches. S. & F. clear golden yellow. \$1.00 each single root.

Prince d'Orange (variegata), 22 inches. S. golden. F. rich mahogany brown. An improved Sans Souci. \$1.00 each single root.

Mrs. S. H. Smith (Fryer), 24 inches. S. "Bronze yellow. F. mauve red, edged with bronze, yellow border. 'Gloxy Strain.'" \$1.00 each single root.

Golden Plume (Fryer), 28 inches. S. "Rich golden yellow. F. chestnut brown edged with yellow."

WHITE

Flourina (species), 26 inches. S. & F. pearly white, some of iris root prominent; quite fragrant.

Mrs. H. Darwin (anemona), 28 inches. S. & F. satin white with a little purple reticulation at the claw. One of the best of this class.

Fairy (pallida), 36 inches. S. & F. resemble sun kissed snow outlined by the faint azure of the sky. The crests of the stigmas are a most delicate lake blue with an abundant though delicate perfume suggestive of the wild wood nymph. The tallest white.

Rhein Nixe (anemona), 36 inches. S. pure white. F. raspberry purple edged white. A most vigorous grower, always dependable. The only one of the white standards and purple falls worthy of being kept in our selected list. As it originated on the banks of the Rhine, its jaunty air may have suggested its name.

La Niège (variegata), 26 inches. S. & F. a pure waxy white without any throat veining. \$1.50 each single root.

Munichaha (variegata), 24 inches. S. "Creamy white shaded yellow. F. creamy white heavily reticulated mauve." \$1.00 each single root.
